

CONTENTS

Review

Ahmadova G. A., Rahimov R. A., Abilova A. Z., Nasibova Sh. M., Mammadova Kh. A.
The role of polymeric surfactants in enhanced oil recovery: a review

533

Shostak N. A.
Azeotropism of clathrate hydrates: a brief overview

547

Original articles

Le Ngoc Khanh Nhu, Nguyen Thi Thu Trang, Nguyen Hoang Huy, Tran Dinh Trinh, Ngoc Anh Vu Thi, Nguyen Anh Tien

Structural, optical and magnetic properties of $\text{CoFe}_{2-x}\text{Eu}_x\text{O}_4$ nanoparticles prepared by simple co-precipitation route

555

Aliiev O. M., Azhdarova D. S., Agayeva R. M., Ragimova V. M.

Phase equilibria and some properties of solid solutions of PbGa_2S_4 – SmGa_2S_4 and PbGa_2Se_4 – SmGa_2Se_4 systems

565

Belenova A. S., Polkovnikova Yu. A., Slivkin A. I., Semenov V. N., Vasilieva S. I., Golovina A. A., Saranov I. A.

Study of the influence of the nature and concentration of the solubilizer on the process of formation of solid dispersions of chloronitrophenol

573

Vakhnin D. D., Fertikova T. E., Zheltoukhova N. A., Kravchenko T. A., Kozaderov O. A.

Redox sorption of oxygen by Pd- and Cu-containing nanocomposites in the over-limiting current mode of electrochemical polarization

581

Vdovenkov F. A., Kolosov A. N., Kuzmenko G. A., Kozaderov O. A.

Simulation of a non-stationary electrochemical process on rough electrodes under mixed kinetic-diffusion control

592

Ismayilova E. N., Mashadiyeva L. F., Bakhtiyarly I. B., Gasyimov V. A., Huseynova I. F., Jafarov Y. I.

Experimental study of phase equilibria in the Cu_2SnSe_3 – Cu_3SbSe_4 –Se ternary system

606

Kozaderova O. A., Saranov I. A.

Hydration properties of heterogeneous ion exchange membranes after their long-term use in the electrodialysis treatment of wastewater from the production of mineral fertilizers

615

Kruzhilin A. A., Shevtsov D. S., Dmitriev I. A., Potapov M. A., Shikhaliev Kh. S.

Synthesis and anticorrosive properties of 2-alkyl-5-methyl-4,5,6,7-tetrahydro-[1,2,4] triazolo[1,5-a]pyrimidin-7-ols

630

Nabiyev E. R., Orujlu E. N., Hasanov A. A., Aghazade A. I., Aliyeva S. H., Yusibov Yu. A.
Phase equilibria in the GeTe – Sb_2Te_3 –Te system

639

Nevelskaya A. K., Belenov S. V., Gavrilova A. A., Paperzh K. O., Lyanguzov N. V., Pankov I. V., Kokhanov A. A.

Study of the influence of the microstructure of Pt/C materials on the electrochemical characteristics of PtCo/C electrocatalysts based on them

651

Rakityanskaya I. L., Myasnikov D. A.

Formation of oxide films on manganese silicide-germanides of various compositions during anodic polarization in an aqueous sodium sulfate solution

661

Samoylov A. M., Dontsov A. I., Prizhimov A. S., Vakhmin S. Yu.

Phase composition and texture of palladium (II) oxide thin films on SiO_2/Si

669

Soloboeva T. P., Dabizha O. N., Batukhtin A. G.
Composition, structure, and electrophysical properties of natural zeolite clinoptilolites subjected to mechanical activation with potassium hydrosulfate

676

Shaposhnik A. V., Arefieva O. A., Zviagin A. A., Brezhnev N. Yu., Vysotskaya E. A., Vasiliev A. A., Ryabtsev S. V., Turishchev S. Yu.

Biotemplate synthesis of In_2O_3 –Pd for room temperature sensor of hydrogen

689

Anniversaries

Margolin V. I.

Congratulations to Professor A. G. Syrkov
